IN THE SENATE OF THE UNITED STATES

SEPTEMBER 21, 1999

Mr. WYDEN (for himself, Mr. CRAIG, and Mr. SMITH of Oregon) introduced the following bill; which was read twice and referred to the Committee on Energy and Natural Resources

A BILL

To provide annual payments to the States and counties from National Forest System lands managed by the Forest Service, and the revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands managed predominantly by the Bureau of Land Management, for use by the counties in which the lands are situated for the benefit of public schools, roads, emergency, and other public purposes; to encourage and provide new mechanisms for cooperation between counties and the

Forest Service and the Bureau of Land Management to make necessary investments in Federal lands, and reaffirm the positive connection between Federal Lands counties and Federal Lands; and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
 2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Secure Rural Schools
 5 and Community Self-Determination Act of 1999”.

6 **SEC. 2. FINDINGS AND PURPOSE.**

7 (a) FINDINGS.—The Congress finds that—

8 (1) the National Forest System, managed by
 9 the Forest Service, was established in 1907 and has
 10 grown to include 192 million acres of Federal
 11 Lands;

12 (2) the revested Oregon and California Railroad
 13 and reconveyed Coos Bay Wagon Road grant lands,
 14 managed predominantly by the Bureau of Land
 15 Management, were returned to Federal ownership in
 16 1916 and 1919, and added to thereafter, and com-
 17 prise approximately 2.6 million acres of Federal
 18 Lands;

19 (3) Congress recognized that, by its decision to
 20 secure these lands in Federal ownership, counties in
 21 which the lands are situated are denied revenues
 22 they would otherwise receive if the lands were sold

1 or transferred into, or the revested and reconveyed
2 grant lands had remained in, private ownership;

3 (4) counties expend public funds to provide edu-
4 cation, road construction and maintenance, search
5 and rescue, law enforcement, solid waste, fire protec-
6 tion, and other services based upon an artificially re-
7 duced tax base;

8 (5) to provide compensation to the affected
9 counties for their loss of tax revenues used for the
10 critical services they provide to both county citizens
11 and visitors to Federal Lands, Congress determined
12 that the Federal Government should share with
13 those jurisdictions the revenues received from the
14 Federal Lands;

15 (6) Congress enacted in 1908, and subsequently
16 amended, a law that requires 25 percent of the reve-
17 nues from National Forest lands be paid to States
18 for use by the counties in which those lands are situ-
19 ated for the benefit of public schools and roads;

20 (7) Congress enacted in 1937, and subsequently
21 amended, a law that requires 50 percent of the reve-
22 nues from the revested and reconveyed grant lands
23 be paid to the counties in which those lands are situ-
24 ated to be used in the same manner as are other
25 county funds;

1 (8) in recent years, as the volume of timber sold
2 annually from most of the Federal Lands has de-
3 creased precipitously, so too have the revenues
4 shared with the affected counties;

5 (9) this decline in shared revenues has severely
6 curtailed the quality of education in the affected
7 counties, as well as other county services;

8 (10) Congress recognized this trend as it re-
9 lated to protection of the Northern Spotted Owl and
10 moved to ameliorate its adverse consequences when,
11 in 1993, it enacted a law—soon to expire—that pro-
12 vided an alternative annual “safety net” payment to
13 72 counties in Oregon, Washington, and northern
14 California in which Federal timber sales had been
15 restricted or prohibited by administrative and judi-
16 cial decisions;

17 (11) no comparable authority has ever been
18 granted for alternative payments to counties else-
19 where that have suffered similar shared revenue
20 losses resulting from the general decreases in timber
21 harvests on Federal Lands;

22 (12) changes in Federal Land management, in
23 addition to having curtailed timber sales, have al-
24 tered the historic, cooperative relationship between

1 counties and the Forest Service and the Bureau of
2 Land Management;

3 (13) both the Forest Service and the Bureau of
4 Land Management face significant backlogs in infra-
5 structure maintenance and ecosystem restoration
6 which are not likely to be addressed through annual
7 appropriations; and

8 (14) new relationships between Federal Lands
9 counties and Federal Land managers need to be
10 formed to benefit our natural resources and our
11 rural communities as we enter the 21st century.

12 (b) PURPOSES.—The purposes of this Act are—

13 (1) to assist local governments dependent on
14 Federal Lands to restore funding for education and
15 other public services that the counties must provide
16 to their citizens;

17 (2) to provide this funding in a form that is en-
18 vironmentally sound and consistent with applicable
19 resource management plans;

20 (3) to facilitate the development, by the Federal
21 Government and the counties which benefit from the
22 shared revenues from the Federal Lands, of a new
23 cooperative relationship in Federal Land manage-
24 ment;

1 (4) to help develop local consensus in imple-
2 menting applicable plans for the Federal Lands;

3 (5) to identify and implement projects on the
4 Federal Lands that enjoy broad-based local support;
5 and

6 (6) to make additional investments in infra-
7 structure maintenance and ecosystem restoration on
8 the Federal Lands.
